Wyoming Cancer
SURVEILLANCE PROGRAM

FALL NEWSLETTER

High Standards

The Wyoming Cancer Surveillance Program received Silver Certification from NAACCR (The North American Association of Cancer Registries) for 2007 data

This accomplishment by the WCSP was not without the partnership of many health facilities, laboratories and physician offices located within and out of the state of Wyoming. Without you as an essential piece of this formidable puzzle, the WCSP would not be able to achieve this goal. Your submission of cancer records to the WCSP in a timely manner was critical in achieving our goal! It's only with your help that our data can be accurate and complete.

I would also like to thank the staff of the WCSP in achievement of Silver Certification. Without your persistence in collecting the data and attention to detail again this goal would have been unachievable.

Congratulations to everyone involved once again for achieving Silver Certification!

WCSP newsletter is a semi-annual publication of the Wyoming Cancer Surveillance Program (WCSP).

This and previous issues are also available online at:
