Wyoming Department of Health, Behavioral Health Division

1% Rate Reduction Summary and service changes

Effective July 1, 2013

The Wyoming Department of Health (the Department), Behavioral Health Division (the Division) amended the Adult Developmental Disabilities (DD) Waiver, Child DD Waiver, Acquired Brain Injury Waiver, and Children's Mental Health Waiver to reduce rates and change some service definitions, which are effective July 1, 2013. The following rate table is in effect as of July 1, 2013. Claims made for services provided after July 1, 2013 will be paid with the reduced rates. Also, please review the notes at the bottom of page 2.

Important to Note:

1. When plans are modified to comply with the new service definitions for respite and skilled nursing, IBAs will be reduced to reflect this change. The money saved in the IBA cannot be allocated for other services.

2. Self-directed budgets are being reduced by 1% in EMWS, and the team can decide where to make cuts in services to stay within the reduced amount.

3. Services using modifiers with the code have 1% taken off of the base rate for the service, not 1 % off of the modifier percentage, so there may be a slight variance on the 1% cut to those rates.

4. Several code changes are being made to other services and will go into effect in September. Once those code changes are announced in June, the Division will issue the process case managers must follow for making the modifications to plans in a timely manner.
