

Wyoming Public Safety Communications Commission

The Wyoming Public Safety Communications Commission is sponsoring a Department of Homeland Security, Office of Emergency Communications/Interoperable Communications Technical Assistance Program (OEC/ICTAP) on the FCC Narrowbanding Mandate on May 4, 2011, at 11:00 am through the Wyoming Video Conferencing System (WVCS).

This video conference will be approximately one hour in length and 23 site locations have been reserved to minimize the time commitment for attendees. The attached list provides the addresses for the scheduled sites. Attendees do not need to register for this video seminar.

The FCC narrowband mandate occurs on January 1, 2013, at which time all FCC license holders in the VHF/UHF frequency range (150 MHz thru 512 MHz) must be operating with narrowband (12.5 KHz) emissions. This video conference will provide information for FCC license holders on the Narrowband Mandate and information on how license holders may transition to operating with narrowband regulations.

The outline for this video conference is as follows:

- Narrowbanding Introduction and Regulatory Issues
- Planning, Scheduling and Coordination
 - Verify license information (current, subject to narrowbanding, etc.)
 - Identify equipment in use and its ability to support narrowbanding
 - Budget for equipment that needs to be replaced
 - Procure the equipment that needs to be replaced
 - Plan for necessary equipment installation and reprogramming
 - Coordinate with adjacent agencies to maintain interoperability
 - Execute the transition from wideband to narrowband
- Helpful resources and websites
 - FCC Narrowbanding
 - OEC/ICTAP's Frequency Mapping Tool (FMT)
- Question and Answer
